Profile

Enterprising M.B.A. and military veteran, excited to step into software engineering and web development. Seeking to pair education with military experience focused on communication, requirements gathering, teamwork, and execution.

Adept leader and communicator with experience as a training coordinator, program owner, and mass communication specialist in the U.S. Navy. In those roles, I was responsible for the development and implementation of command-wide qualification and professional skills training programs. Additionally, while deployed, I worked collaboratively in cross-functional teams in support of multiple mission owners.

Employment History

Associate, Genesis10 Dev10

August 2023 — Present
